At A Glance

ISO 13485: 2016 & International MDSAP Audit Model Lead Auditor Training for Medical Quality Management Systems

The ISO 13485:2016 and international Medical Device Single Audit Program (MDSAP) five-day training is focused on international MDSAP and ISO 13485 compliant medical device requirements and auditing methods. This course provided from Apex is taught in conjunction with Omnex, an Exemplar Global Certified TPECS provider for Exemplar Global MD, AU and TL Competency Units.

Medical device auditing requires technical knowledge as well as a deep understanding of international medical device regulations. Students participating in this course will gain knowledge and skills to conduct audits of ISO13485: 2016 management system requirements in accordance with the new MDSAP Audit Model.
The Lead Auditor Training course will teach students to plan, conduct, report and follow-up on QMS audits in accordance with ISO 13485:2016 and MDSAP. Auditing standards include MDSAP requirements, ISO 19011 and ISO 17021 (MDSAP auditors need to follow ISO 17021).

Considering the ISO 13485:2016 management system requirements and various regulatory authorities compliance requirements around the world and the global supply chains involved, a comprehensive program like our MDSAP Lead Auditor Training' is incredibly valuable. The course provides extensive practical training and hand-on exercises, which will help prepare medical device auditors to identify critical nonconformities and meet international regulatory requirements.

ISO 13485: 2016 & International MDSAP Audit Model At A Glance *(Continued)*

The course is designed for medical device professionals with responsibility for conducting or implementing internal audits, supplier audits or corporate audits. Quality directors, regulatory managers and professionals responsible for managing internal, corporate, supply chain or certification responsibilities may also benefit from this unique program.

Upon completion the participants will be capable to audit ISO 13485:2016 and jurisdiction requirements in the countries participating in the MDSAP program.

Participants of the training will learn from highly experienced instructors with decades of experience in medical device quality management systems.
