# At A Glance

Combined Environmental and Occupational Health and Safety for Quality Management Systems

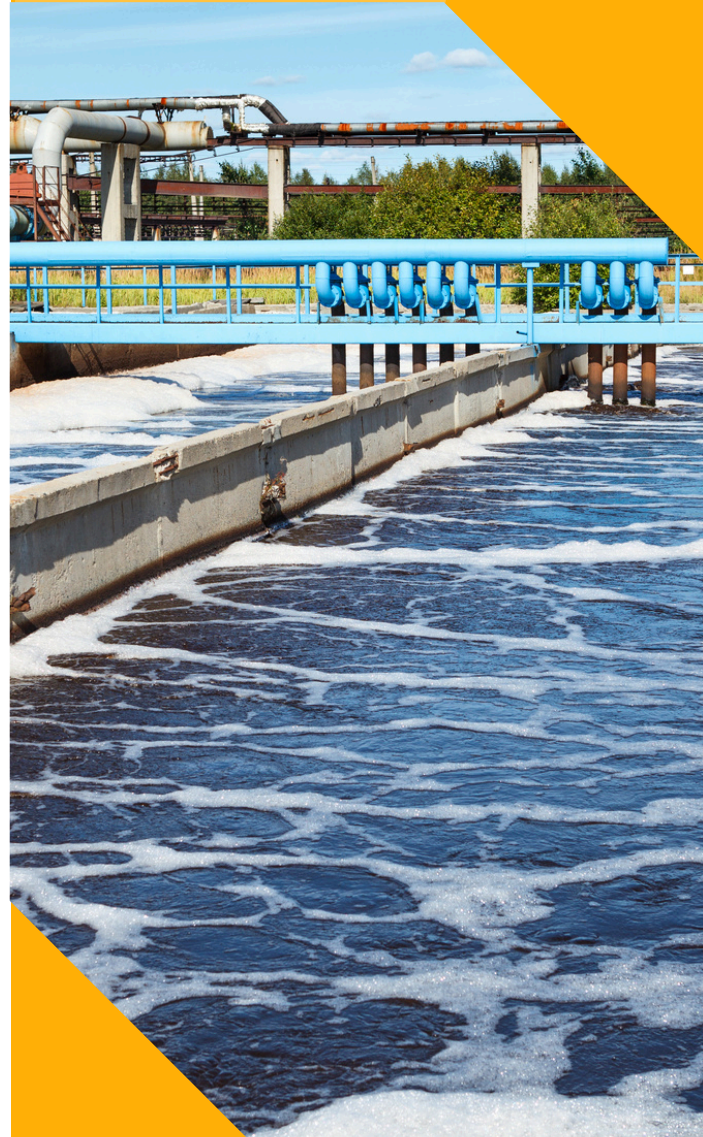

This 5-day course was designed for you to Learn the requirements of ISO 14001:2015 and ISO 45001:2018 and how to relate the requirements to your integrated management system.

Within the course you'll understand how to assess the effectiveness of process-based management systems responsible for ensuring stakeholder needs are met and consistently fulfilled over time. Learning the difference between:

- Non-value adding "ISO" systems based on the standard; AND
- Value adding integrated management systems conforming to ISO 14001 and ISO 45001

Training units within the course include:

- 14001 – Environment Management Systems
- 45001 – Occupational Health and Safety Management Systems
- AUDITOR – Management Systems Auditing
- TEAMLEAD – Leading Management Systems Audit Teams

# Who Should Attend

## Combined Environmental and Occupational Health and Safety for Quality Management Systems

This seminar is primarily designed for lead or third-party auditor candidates, but can also be valuable for Quality Assurance Managers, ISO 14001:2015 and ISO 45001:2018

Implementation and/or Transition Team Members, Management Representatives, and all others who would like to develop competency in ISO 14001:2015 and ISO 45001:2018 and the auditing process for first, second and third-party auditing.

This course also benefits a range of professionals including environmental professionals, occupational health and safety professionals, VP/directors of regulatory affairs, ISO managers, and improvement specialists.

A prior review of ISO 14001:2015 and ISO 45001:2018 is suggested for this course.
