Understanding ISO/IEC 17025:2017

## At A Glance

Understanding the Requirements of  
ISO/IEC 17025:2017

This two-day seminar offers an in-depth look at the latest ISO/IEC 17025:2017 standard, the international benchmark for competence in testing and calibration labs. The program will not only provide an overview but also serve as an upgrade for those already familiar with the standard. A key focus will be on how to implement a management system that integrates the requirements of ISO 9001:2015, ultimately strengthening a lab's technical capabilities.

By adhering to ISO/IEC 17025:2017, laboratories can expect smoother acceptance of their testing and calibration results across international borders and industries. This paves the way for increased cooperation between labs and other organizations, fostering a valuable exchange of information, experience, and best practices.
